

« **enVie** » heArtwork is a fashion label & fabric refinery founded in 2011.
enVie coming from the french and stands for „enJoy life & savoir-vivre“, but as well to envy
someone ... (maybe for the recycled haute fur piece). The mission: The joy and luxury of
limited editions, individualized & personalized style pieces and a remix of casual couture and
ready-to-wear fashion. Green Fur Couture is the transformation of recycled fur into casual
haute pieces. #beFur #greenfurcouture #envieheartwork

If every „fashion enViection“ recycles one nonuse
furry piece a year, we would recover gallons of
water alone (not wearing polyester jackets in the cold
season). And – hand on heart – we all have at
least one coat in our family fundus, that we could
transFur into a new winter diva ...
